
QUQUQ CORE – the lightweight, flexible modular system for mini-campers
QUQUQ

QUQUQ CORE.
The new mini-camper system
for greater freedom whilst travelling.

With QUQUQ CORE, camping becomes as flexible as your travel plans. The lightweight, modular mini-camper system combines 15 years of QUQUQ experience with a thoroughly thought-out design, high quality and ease of use.

At the heart of the system are the fold-out BOARD bed frame and the CUBES – functional modules for cooking, washing, cooling and storing.

A complete travel setup comprising the BOARD and four CUBES can be carried by a single person, installed in just a few simple steps and stored with ease, even in small flats.

Easy to transport.
Quick to install.
Simple to stow away.

BOARD – the compact van bed.
At just **12.5 cm high** and **weighing 18.4 kg**, the BOARD is super compact and lightweight – easy to store, carry and install.

CUBES – small, lightweight and versatile.
Four CUBES weigh just 13 kg. With WHEELY, the mini transport trolley, they can be moved around with ease.

You can mix and match QUQUQ CORE components to suit your travel plans with complete flexibility. From a compact weekend setup to a full travel kit.

BOARD
for a spontaneous night's stay in the van
BOARD + four CUBES
for a big summer trip
HOT CUBE + WET CUBE
as an addition to the roof tent

Simple. Good. Thoughtful.

The whole thing has been thought through down to the last detail and is perfectly coordinated. So that it's simple, works perfectly and you can concentrate fully on your journey. Just typical QUQUQ.
