

The Critical Alerter

✦ All the latest Radio Messaging News from Scope Communications ✦

April 2021 Focus on Fire system *Radio Links*

For Fast and Flexible Alarm Notification, Scope's mesh network radio solution extends your fire system to cover adjacent buildings. Add a powerful paging transmitter to send all system alarm and status messages to mobile personnel. Increase your offering to cover deaf occupants with a fully supervised fire alert solution, with add-on nightstand and pillow vibrator devices for hotel & residential use.

Expand your Fire System Alerting to cover multiple buildings

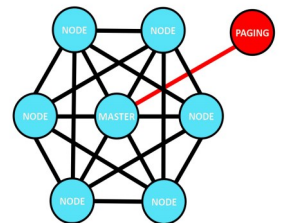

- Network up to 16 buildings (15 Nodes + Master)
- Plug & Play installation
- Fully monitored self-healing network
- Scope Digimesh™ fast signalling technology
- Backlit 2 line status display
- 4 x trigger inputs and 4 x Relay Outputs

F-Link 4

Add a Paging option for Mobile Alerts

- Serial data link from F-Link Master
- Transmits all network Alert messages
- Powerful 2W flagship Paging system
- Programmable colour-coded messages when used with EPOC critical alerters

F-Link CNX

Provide on-site Fire Alerts for the Deaf

- Self-Monitoring 2W UHF Radio system
- Internal 72 hour+ battery backup
- Full Diagnostic Display
- Optional Nightstand with beacon
- Optional pillow vibrator
- Conforms to BS5839-1 2017, Sec. 18
